PROFILE

Data and supply chain analyst with 7 years at Johnson & Johnson, delivering forecasting, pricing, and planning projects. I specialise in simplifying complexity and leaving behind tools that last — from an Alteryx workflow cutting $8.3M in excess stock to pricing systems used by 650 sales reps on £1B+ NHS sales. After 8 years, I chose to leave J&J on my own terms in 2025 and am now seeking contract roles where I can ramp up fast, deliver measurable results, and bring a fresh perspective. **Available immediately.**

SKILLS

- **Analytics & Tools**: Excel, Power BI, Tableau, Qlik, Alteryx, SQL, Visual Studio Code
- **Supply Chain**: OMP, APO SAP, Windchill, S&OP, IBP, Demand Planning, NPI, Inventory Optimisation
- **Business Impact**: Forecasting, pricing strategy, process design, portfolio management

EXPERIENCE

Johnson & Johnson MedTech – End-to-End Planning Analyst | Global team
Leeds, UK | *Aug 2020 – Feb 2025*
Delivered forecasting and inventory initiatives across product lifecycles, from new launches to portfolio management and end-of-life planning.

- **Excess Stock Reduction**: Built Alteryx + Power BI workflow analysing 220M+ rows of data → identified and removed $8.3M in excess stock.
- **Reporting Automation**: Created standardised reporting packs and dashboards adopted globally.
- Partnered with marketing, procurement, and planning teams to launch three new products with stronger forecasting and master data integrity.
- Represented brands in IBP/S&OP forums, driving alignment between commercial and supply chain teams.

Johnson & Johnson – Commercial Analyst | UK team
Leeds, UK | *Jan 2019 – Aug 2020*
Pricing analytics and strategy for NHS frameworks worth over £1B, balancing growth and profitability.

- **NHS Pricing Framework**: Designed pricing tool (40k products, 23 mechanisms) rolled out to 650 sales reps → improved modelling accuracy and negotiation confidence.
- Partnered with vendors to shape new pricing systems, led UAT, and validated outcomes with Power BI dashboards.
- **Data Integrity**: Improved distributor data process → uncovered £450k in historical sales errors, correcting commissions and rebates.
- Trained and mentored new starters in tools, analytics, and pricing processes.

DePuy Synthes (J&J) – Demand Planner | EMEA team
Leeds, UK | *Aug 2017 – Jan 2019*
Managed statistical forecasting and regional demand planning across 20+ markets.

- **Inventory Build:** Streamlined forecasting workflows supporting a **$40M** inventory build across EMEA.
- Developed process for unplanned demand events, ensuring forecasts remained statistically robust.
- Owned statistical forecasting for a key implant brand, driving consistency and accountability.

EDUCATION

- **Sheffield Hallam University** – BSc (Hons) Chemistry, First Class (2016)
- **Boston Spa School** – A-Levels: Chemistry (B), Geography (C), Physics (C).
  10 GCSEs including Maths & Sciences (A–B).

CERTIFICATIONS

- **Microsoft Certified: Power BI Data Analyst Associate (PL-300), Sep 2025 -** Expertise in data preparation, DAX modelling, dashboard design, and secure content deployment in Power BI Service.
- **Alteryx Designer Advanced Certified, Sep 2025 -** Advanced data prep and blending, spatial analytics, macro/app design, and automated reporting.
- **Alteryx Designer Core Certified, Sep 2025 -** Proficient in data cleansing, joins, transformations, summarisation, and workflow automation.

PORTFOLIOS

Forecast Accuracy Analysis project (work in progress, Oct 25): *github.com/jonnylgreenwood*

- Built end-to-end forecasting database in SQL (L0–L2 layers), integrating sales and product data. Automating forecast generation and KPI tracking (MAPE, bias) in development. Power BI dashboard in development. Documented investigations , process and rational using github & VSCode.

Photography: *Jonny Greenwood Photography*

- Structured passion project with a full post-processing workflow (Lightroom, colour calibration, metadata). Treated as a creative data pipeline: clean inputs, consistent processes, iterative refinement.

CAREER BREAK

Feb 2025 – Present
Took time out after 8 years at J&J to travel, volunteer, and focus on creative and technical projects.

INTERESTS

Bouldering, skiing, yoga, and the gym for balance. Photography as a structured passion project with a full editing workflow and colour-calibrated setup. Also exploring music production and reading in psychology and self-development. Studying Ukrainian with a private tutor.
